

Shark

The famous Swiss Made rubber magnifying glasses.

FOCAL LENGTH: 2.5X | APERTURE: 20mm

Designed down to the last detail, the body is made of high-quality rubber. Fully biocompatible and flexible with a non-slip profile, it adapts perfectly to the eye without injuring it, even over long periods of use.

PRIVATE LABEL

An excellent advertising medium for your events, customer gifts and promotions!
Don't hesitate to send us your requests - **Everything is possible!**

WOOD IN ITS NATURAL STATE

The species we offer are all precious. We favor short circuits, plum and pear trees offer an interesting alternative to exotic woods. Both come from the Val-de-Ruz in the canton of Neuchâtel. Our attention to detail makes each part unique. We look forward to hearing from you!

**Soft magnifying glasses
with Aluminum ring**
